"Where Quality and Price Meet."

AN ANNUAL PHYSICAL EXAMINATION.

Spring is here, and with it spring cleaning. Every corner of the house is turned out, examined, scrubbed and necessary repairs done. The garden is attacked, refuse gathered, burned or otherwise disposed of, lawns brushed, trees and hedges pruned. The car is taken to pieces, thoroughly overhauled and put in complete running order, but, what about the complete physical examination of the human machine! The intricate and irreplaceable mechanism that never gets a rest, the machine for which no spare parts CAN be bought? Alas! it is used and abused day in, day out, week in, week out, year in and year out until the mechanism shows signs of giving up and then it is taken to the repair shop, in other words to the physician, who in many, many cases can do no more than PATCH. Why is the cheapest make of car given more consideration than the human body? A car can be replaced, a body NEVER. The value of a periodic physical ex-

amination cannot be over-estimated. Many diseases begin slowly or insidiously and may not produce any disabling symptoms until the condition is considerably advanced. T. B., cancer, Bright's Disease, Diabetes, hardening of the arteries, and certain forms of heart disease are examples of diseases that may begin unnoticed. To the physician trained to note the slightest symptom of disorder, the beginning of these diseases is at once apparent. A careful physical examination made periodically would detect such diseases early and allow of the prompt institution of proper treatment.

Objection to periodic physical examinations is sometimes made on the ground that such examinations cause much unnecessary worry, especially if some disease is detected, but if a diseased condition is present the person affected should know it in order that corrective steps may be taken promptly. If a person is in excellent health, he has nothing to fear from an examination, but such an examination will add to his peace of mind and mental security. Physical examination

NEW REGULATIONS AT BANFF

Visiting motorists at Banff will pay this year a license of two dollars to enter the park at the Kananaskis or west gates, which will entitle them to pass through the gates without further charge for the balance of the season.

The license also gives the right to camp on any of the recognized camping grounds in the Rocky Mountains, Kootenay and Yoho parks during a period of 30 days from its issue. If the visitor desires to camp after the expiration of 30 days a camping permit will be necessary. The permit will be obtainable either at the entrance or at the Banff camp ground, will cost \$1, and will be good for 30 days.

tion should begin in early life, during the pre-school age, and be continued into old age. If this practice was begun then, there would be found many defects which could be corrected and thus the handicap of such children avoided.

"Prevention is better than cure," and the Red Cross with its Health Package Library will give much valuable assistance towards this end.

Lady of the House: "So you are the sole survivor of a shipwreck? Tell me how you came to be saved."

Old Salt: "Well, you see, lady, I missed the boat."

She: "I hear the sea captain is in trouble. He married a girl, and she ran away from him."

He: "Yes; he took her for a mate, but she was a skipper."

Father: "Be so good as to finish your oatmeal, son. You should be ashamed of yourself; how many poor wretches would be happy to get as little as half of that oatmeal?"

Son: "Me, too."

GREAT SCARCITY OF DAIRY CATTLE

That there was a great demand for good dairy cows in various parts of the United States, and that Alberta farmers and stockmen should retain their good animals in the meantime, was the advice of Geo. H. Hutton, superintendent of the agricultural and animal husbandry branch of the natural resources department of the Canadian Pacific upon his return from Tuesday from a visit to the other side of the line.

Dearth of Cattle

Mr. Hutton stated that in the town of Barron, Wisconsin, which was usually a big distributing point, there were buyers the morning he was there from Nebraska, New Hampshire, Connecticut, Massachusetts and Illinois, and one man had been there for 16 days and had only bought 36 head of cattle.

"In face of all this, it is interesting to note," he said, "that last year the little town mentioned shipped out 126 cars of Holsteins and 70 cars of Guernsey cattle."

Advice to Dairymen

Mr. Hutton said that a shortage of dairy cattle was likely to be felt in Western Canada before the end of the year and dairymen would therefore be well advised to retain all their promising heifers and good young cows.

Referring to conditions generally in Alberta, Mr. Hutton struck a decidedly optimistic note. The outlook, he said, was decidedly encouraging. He said he had been informed that threshing via Lethbridge, and many farmers in the south were now on the land. He said he had been informed that threshing there would be completed in two or three days if the present weather held. With the splendid moisture in the land germination of the new crop would be most rapid once the seed was in the ground.

WORLD HAPPENINGS BRIEFLY TOLD

John Bassett Moore, American judge on the permanent court of international justice since 1921, has announced his resignation.

The Prince Edward Island Government has purchased about \$20,000 of seed oats and wheat in Manitoba for distribution among the farmers at cost.

The British House of Commons debated and gave second reading to a bill providing for the grading and marking of British agricultural produce with a view to combating foreign competition. A start will be made with eggs and fruit.

It is expected 1,000 men for Canadian farms will be sent out from the agricultural training centre established by the British war office at Chiseldon for the training of young men about to be demobilized from the army.

RHEUMATIC PAINS DUE TO THIN BLOOD

Relief Comes Through the Use
Of Dr. Williams' Pink Pills

The most a rheumatic sufferer can hope for in rubbing something on the swollen, aching joints is a little relief, and all the while the trouble is becoming more firmly rooted. It is now known that rheumatism is rooted in the blood, and that as the trouble goes on the blood becomes still further thin and watery. To get rid of rheumatism, therefore, you must go to the root of the trouble in the blood. That is why Dr. Williams' Pink Pills have proved so beneficial when taken for this trouble. They make new, rich blood which expels the poisonous acid and the rheumatism disappears.

There are thousands of former rheumatic sufferers in Canada, now well and strong, who thank Dr. Williams' Pink Pills that they are now free from the aches and pains of this dreaded trouble. One of these Mrs. W. F. Tait, McKellar, Ont., who says: "I am one of the willing ones to tell you of the great benefits I received from the use of Dr. Williams' Pink Pills. After lying in bed for seven weeks suffering untold agony with inflammatory rheumatism, relief finally came through the use of this medicine. I could not move in bed only as they lifted me, and I could only sleep when opiates were given me. The medical treatment I was taking seemed of no avail. Then I was advised to try Dr. Williams' Pink Pills, and soon I began to get relief. After taking six or eight boxes the rheumatism was banished and I had never felt better in my life. It is several years since this happened and I have had no return of the trouble since. I may add that I recommended the pills to two of my friends who were suffering with rheumatism and the pills were equally effective in both cases."

Try Dr. Williams' Pink Pills for anaemia, rheumatism, neuralgia, indigestion or nervousness. Take them as a tonic if you are not in the best physical condition and cultivate a resistance that will keep you well and strong. You can get these pills through any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Lake Michigan is separated from Lake Huron by the Strait of Mackinac.

Small Town Papers

BY FRANK PARKER STOCKBRIDGE

Reprinted by special permission from Saturday Evening Post. Copyright 1928 by the Curtis Publishing Company, Philadelphia.

(Continued.)

I wanted to know just how they make money. Does the modern country newspaper publisher keep accounts like a business man, or does he just guess at his profits, as the old-timers used to do—and usually guessed wrong?

"That's one of the things we are doing in our state and regional press associations," said the Iowa man. "Teaching the country editor how to figure his costs and base his advertising and subscription rates upon them is one of the important items in the work of our organizations. Too many of them are still guessing at costs. In fact, the former president of the National Editorial Association, Herman Roe, recently said that accounting was the weakest spot in the whole rural newspaper field."

"I was at the meeting when Roe said that," put in Bert Mills. "He asked for estimates of the cost of producing a six column, eight-page paper, 2,000 copies. Would you fellows believe that those estimates ran all the way from \$75 to \$300? The men who were publishing the papers didn't know, most of them, what it cost them. How are you going to sell advertising space at a fair price? And you can't prove that unless you know what it costs you."

"I think I've got the costs pretty well worked out in the Gazette plant, but it took my older boy, fresh from college, to show me where I had omitted a lot of items in my old way of figuring. Now we charge up to costs not only the wages paid and material used but a rental by the week for each machine, high enough to cover depreciation and interest on the investment, a fair rent for the building and everything else we can think of in the way of expense, including my own salary, and then we add a profit on an arbitrary figure on top of all that, to be safe."

I run a sixteen-page, six-column paper, and print a little more than 3,000 copies every week. I average about 1,000 inches of advertising each issue. Figured the way I've just described, it costs about \$446 an issue to produce. I get 40 cents an inch for advertising space, or about \$400 an issue. That may look as if the Gazette were headed for bankruptcy, but that apparent loss of \$446 is offset, first, by the 25 per cent profit, which has been figured into the costs all along the line, so that on advertising alone there is a profit in getting out the paper of \$65.50 a week. I draw a salary of \$60 a week, which is included in the costs. Those two items come to \$6500 a year, and the subscription revenue runs another \$7,500. The interest on the investment, charged also into costs, brings my profits above \$15,000 a year, without counting legal advertising, sale of extra copies and such items."

I was pretty well convinced by this time on every point but one.

"I hate to try to borrow money at the bank on the strength of that subscription revenue," I suggested.

There was a chorus of laughter from the entire group around the luncheon table.

"Try to subscribe to an up-to-date country weekly without paying cash in advance and see what you get," said one of them. "Cash-in-Advance Club is one of our strongest and most popular organizations. It has taken a good deal of educational effort, both with subscribers and with publishers to establish the principle of paid-in-advance subscriptions, and there are a good many papers still which do not enforce it very strictly. But I should say that a clear majority of the country weeklies now get their money from subscribers promptly, both for original subscriptions and for renewals. The modern farmer has not the aversion to paying out cash that his granddad had. He has the cash to pay, for one thing, and he buys machinery and other things for cash, so that it seems natural to him to pay for his paper in cash. And while we think of the old-time editor as taking apples or cordwood for subscriptions, we've found some papers, in the course of our association investigations, which have always enforced the cash-in-advance rule. There's the Southern Standard, for example, which has been published at McMinnville, Tennessee, since 1879 without a break, and which has never sent a copy to a subscriber who wasn't paid up for a year ahead. They get somewhat less than the prevailing rate of \$2.50 a year, or five cents a copy, which is now almost the standard rate all over the country and which gives the publisher a run for his money."

"The whole trick is to make the paper so useful and interesting to the local readers that they can't get along without it," said Bert Mills.

"Like the Star Clipper," agreed the man from Iowa. "That's the prize-winning country weekly for 1927-28. One of the things which the National Editorial Association does every summer is to award a prize to the best country weekly. Bert, here, got it one year. Until the 1928 convention, next summer, it's held by a paper out in my state, in a town you probably never heard of, called Traer, in Tama County, Iowa. And what makes it the best weekly paper in the United States, as it has a right to call itself,

The Best Laxative

He Ever Tried

Mr. Wm. Towner, New York, writes: "Never have I felt better in my life. Your purely vegetable Laxative Pills keep my bowels active; headaches and indigestion never bother me now. I enjoy my sleep and get up refreshed, with a clear head ready for a day's work."

CARTER'S LITTLE LIVER PILLS

Sold all druggists 25c and 75c red pkgs.

is the fact that it is so full of local news about local people and events that everybody in its territory just has to read it. Traer has a population of 1,329, but the Star Clipper has a circulation of 3,575—and all paid in advance at two dollars a year. When the N.E.A. committee checked up its circulation it was found that in thirteen townships in the county nine out of every ten farmers were subscribers. Three townships showed 100 per cent subscriptions."

"That's a real record," said Bert Mills. "They give another award every year, too, for the paper with the best editorial page. It is an up-state New York paper that holds that this year—Jacob Strong's Rhinebeck Gazette. Most of us don't go in very strongly for editorial comment, but the Gazette speaks right out in meeting, about matters of local interest, and has a great influence in Dutchess County."

"I think there's a decided tendency toward stronger editorial expression as well as toward constructive community service, among country weeklies generally," added the editor from Oklahoma. "That last is another matter which the National Editorial Association is encouraging. At its last convention the association gave a prize to the Clinton Country Republican News, published at St. Johns, Michigan, for the greatest community service, in recognition of its campaigns to raise money for a county hospital, for fireproof vaults for the courthouse and for tuberculosis tests of cattle in the county.

SUNDAY SCHOOL LESSON

MAY 13

JESUS ENTERS JERUSALEM

Golden Text: "Behold, thy King cometh unto thee; He is just, and having salvation."—Zechariah 9:9.

Lesson: Mark 11:1-33.

Devotional Reading: Psalm 24:7-10.

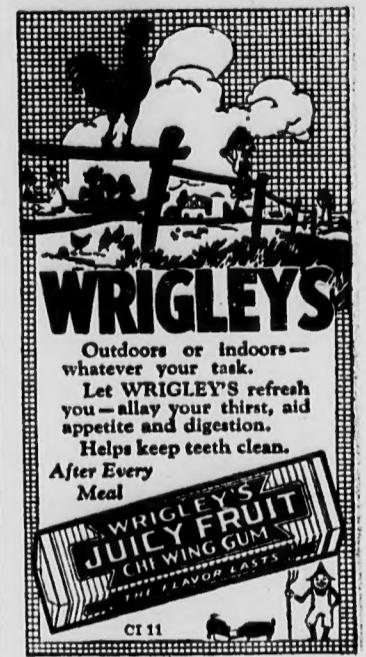

Explanations and Comments

Christ's Kingship Openly Proclaimed, verses 1-10.—On the day which we now call Palm Sunday, the last Sunday of His life, Jesus made His triumphant entry of Jerusalem. On approaching Bethphage and Bethany, not far from the city, Jesus bade two of His disciples go into the village opposite, where on entering they would find a colt tied which no man had ever ridden; this animal they were to loose and bring to Him. If questioned as to their action they were to say, "The Lord hath need of him and will return him to you after he has been ridden." The disciple found the colt in a public street fastened to a door, and as they unloosed him were questioned, but upon answering as Jesus had directed they were permitted to take him away. The owner was evidently a friend of Jesus.

They brought the colt and put their loose, outer robes upon him for their Master to sit upon. Others spread their garments on the road, and yet others secured branches of palm trees (John 12:13), and cast them down for Him to ride over. And the crowd that went before as well as the crowd that followed cried, "Hosanna! (Save now; compare the acclamation, God Save the King); Blessed is He that cometh in the name of the Lord; Blessed is the kingdom of our father David; Hosanna in the highest." The words are from the one hundred and eighteenth Psalm, "The Messianic Psalm," the last one of the five "Hallel Psalms" which were sung by the people as they wended their way around the altar at the great festivals. Their use on this occasion indicated that the people recognized Jesus as the Messiah. "Shout, O daughter of Jerusalem," Zechariah had cried; "Behold thy King cometh unto thee; he is just, and having salvation; lowly, and riding upon an ass, even upon a colt, the foal of an ass." This prophecy Jesus intentionally fulfilled. The words were prophetic of a peaceful King, not of a warrior. The ass was the animal for labor; the horse was for war. "In reality the ride over the Mount of Olives was Jesus' last attempt to convey to those about Him by symbolic act that which His words had failed to convey, that He had not come to be a conquering warrior or political King, but a lowly Servant and Prince of Peace."—George A. Barton.

Modern slang leads to many complications, and we know of one young man who is looking for another sweetie because he told his last one that her shoes looked great!

In shipping their choicest teas over land and sea, great tea planters never take any chances of the tea deteriorating in transit. They pack it in aluminum or lead—Red Rose Tea is always packed in aluminum, so it will come to you as fresh and flavorful as the day it was blended. s.w.

How to Make Rice Pudding

A TESTED RECIPE That Adds New Flavour:

4 tbsps. rice 2 1/2 cups Borden's
1-3 cup sugar St. Charles Milk
34 tspn. salt 1 1/2 cups water
Nutmeg

Wash the rice thoroughly, then add with the sugar and salt to the milk diluted with water. Pour into a buttered baking dish and add a sprinkling of nutmeg. Set the dish in a pan of hot water and bake three hours in a slow oven (300°F.) stirring several times the first hour to prevent the rice from settling to the bottom. Serve hot or cold.

For Free Recipe Book, Write The Borden Co. Limited, Montreal, 704 Borden's St. CHARLES MILK (Unsweetened)

Cute in a Baby—
Awful at Three
—and it's Dangerous

Thumb sucking does look sweet in a baby, but it is disgusting in the three-year-old and sometimes it hangs on until fifteen or sixteen! The habit may cause an ill-formed mouth or induce adenoids; and it always interferes with digestion. Pinning the sleeve over the hand; attaching mittens, or putting on cardboard cuffs, which prevent bending the arms at the elbows, are some of the ways to stop the habit.

Another bad habit—irregularity in bowel action—is responsible for weak bowels and constipation in babies. Give the tiny bowels an opportunity to act at regular periods each day. If they don't act at first, a little Fletcher's Castoria will soon regulate them. Every mother should keep a bottle of it handy to use in case of colic, cholera, diarrhea, gas on stomach and bowels, constipation, loss of sleep, or when baby is cross and feverish. Its gentle influence over baby's system enables him to get full nourishment from his food, helps him gain, strengthens his bowels.

Castoria is purely vegetable and harmless—the recipe is on the wrapper. Physicians have prescribed it for over 30 years. With each package, you get a valuable book on Motherhood. Look for Chas. H. Fletcher's signature on the wrapper so you'll get the genuine.

Unable to support properly his wife and nine children on the wages of a blast furnace man, and discouraged by conditions in the Old Country, Thomas Booth, of Southorpe, Lincs., England, looks to Canada to give him a return more commensurate with his labors. Having had considerable farm experience he decided to emigrate, and he arrived in Canada this week in the White Star liner "Calgary." He will work a farm at Emo, Ont.

LOOKS TO CANADA

THERE is nothing that has ever taken Aspirin's place as an antidote for pain. It is safe, or physicians wouldn't use it, and endorse its use by others. Sure, or several million users would have turned to something else. But get the real Aspirin (at any drugstore) with Bayer on the box, and the word *genuine* printed in red:

Aspirin is the trade mark registered in Canada indicating Bayer Manufacture. While it is well known that the Bayer name is used to assure the public against imitations, the Tablets will be stamped with their "Bayer" trade mark.

CHAPTER XXIII.—Continued.

"My dear," said one, "it is our patriotic duty to save every cent. I cut down my cook ten dollars at once, and changed my dressmaker." Her voice fell. "My dear, there's a wonderful German woman on the south side—I will give you her address—and she made me a stunning little afternoon dress, with so much hand-work on it, for ten dollars. Madam Frouchette would have charged thirty-five. She is a positive find. She's frightened to death that she will lose her trade, and so has cut her prices away down. We're keeping it among ourselves, my dear. You know some of the I.O.D.E.'s would be up in arms if they knew. They say we should

Firestone Tread is Scientifically Designed

When Firestone engineers were developing the Balloon Tire they found it necessary to design a tread altogether different from that required by High Pressure Tires.

The Firestone tread was not designed with large, massive projections for appearance or to make plausible sales argument. On the contrary, the projections of the cross-and-square tread are small and the rider strips narrow, permitting the tread to yield to irregularities and cling to the road, giving the greatest non-skid surface. This tough, pliable tread has the wear-resisting qualities that give thousands of extra miles of service and save you money.

Your nearest Firestone Dealer will gladly supply your needs and give you the better service that goes with these better tires.

patronize our own, but, my dear, the German woman has to live."

When Helmi walked wearily back to the "North Star" that night she was beginning to wonder if to bring a child into the world were not the great transgression for which there could be no pardon. Only the thought of the blessed shelter of her room, and the warm-hearted Irish family who had befriended her kept her heart from despair. Mrs. Corbett had not thought it was so terrible. She had praised little Lill, and Rose and Danny were getting marbles now from other children in the block for a look at the child.

The traffic was congested at the corner of First and Jasper. A Blue Line car waited for the rush of passengers homeward bound, and a coal wagon, lumbering past, narrowly escaped a closed motor which had dashed by disregarding the traffic law. A newsboy in an overcoat much too long for him shouted "Evening Journal, all about the suicide."

Two men, waiting to get across, were talking about it. "She took a room at the St. Petersburg . . . left her baby there."

Helmi shuddered and hurried on. She wanted to feel the little warm cheeks against her own, and to listen to the regular breathing, and get back the confidence she had lost. There must be someone in this city who would let her work.

The next day Miss Ritchie had an address for her. The lady there wanted someone to come by the day and go home at night. Helmi set out at once, taking a street car to save time. When she arrived she found that the lady had already secured a helper for the day.

After Helmi had gone the lady remarked to her friend that the girl whom Miss Ritchie had sent looked rather pale, and she wished she had given her a street car ticket. The friend advised her not to worry over it—"no doubt a brisk walk would do the girl good."

Helmi walked slowly over the long bridge, whose great iron pillars frowned coldly at her. On the river below men were drawing sleighloads of ice, glistening blue against the white snow. They looked so warm and happy in their fur coats. Helmi stopped for a moment to watch them, but soon hurried on, for it made her dizzy to look down, and yet it drew her back again in a horrible way that made her heart beat sickeningly. She compelled herself to think of little Lill's pink fingers, with their long, tapering nails, and the satiny feel of her little cheek.

Helmi knew there were kind women in the city; there were women like Miss Abbie and Miss Rodgers, and men like Mr. Terry and the Doctor. She would not give up—two days was not long to be looking.

When Helmi got back to the Bureau Miss Ritchie's assistant was there, a young lady with a metallic voice and stiff white collar which seemed to choke her. She motioned Helmi to sit down.

Helmi laid her purse on her knee and leaned back against the wall. Such a weariness came over her that even the hard seat could not prevent sleep. She was awakened by the metallic voice of the assistant and sprang up in confusion. It was near closing time and the seats were empty. Then she noticed that her purse was gone. The blood rushed to her head, and it seemed as if something snapped. She hunted wildly, talking in her own language excitedly.

The metallic voice was saying: "We cannot be responsible for property—you should have held on to your purse—was there much in it?"

"All that I have in the world," said Helmi brokenly.

"Too bad," came from the stiff collar, "but you can't blame us."

Helmi walked down the street empty handed and distraught. She had a desire to tear her hair—to scream—to break something—to kill someone. It couldn't, couldn't, couldn't be—all that she had—her seventeen dollars, her marriage certificate—God could not be so cruel.

A man was speaking at the corner of the street, catching the six o'clock crowd. Helmi could not make her way through the mob, and so found these words beating in upon her through the confusion of street sounds: "Canada calls you, as it has called me. Canada is good enough to fight for—don't fail her now in her need. How would you like to be ruled by Germany? How would you like to bow

the knee to Kaiser Wilhelm? Think of our lives here in Canada, where we are free as the air we breathe, with all our wealth of wheat-fields, oil wells, mines and forests, enough for all, enough for ever—yours and mine. Canada, the land of plenty, is our country. Let us fight for it—the land of the maple leaf, where there is room enough and work enough for everyone."

A shift in the crowd revealed the speaker's face. Helmi remembered him—it was Major Gowsett, the man who had been with Colonel Blackwood. Black rage filled Helmi's heart. Oh, the liar! how could he say there is work in Canada for everybody? There's nothing in Canada but heart-break." Clenching her empty hands in an agony of hopeless rage—"He's a liar!" she cried aloud, "don't listen to him!"

Someone tapped her arm. "None of that, my girl," said a deep voice.

Looking up, Helmi saw a big policeman shaking his head warningly at her. She turned and ran. Fear gave fleetness to her feet—she dared not look behind—it seemed as if the whole police force were in pursuit. Heavy steps pounded behind her. At the corner of Namao Street a sign in a window glared at her a sign in black letters on a blue card. Helmi read it aloud in her eagerness, then darted in the door.

"GIRL WANTED" said the sign. Pale and trembling, Helmi approached the desk.

"Do you want a girl? Will you take me?" she said, before she noticed the person who sat there.

A tall, old Chinaman rose from his high stool. "You washes dish, cook, waiter table?" he asked.

"I will do anything," said Helmi; "give me a chance."

"Sure, you nice liddle girl; old Sam give you chance. Want girl for night—seven till twelve every night. Nice liddle parties—lots of nice fellows come eat at old Sam's—like nice liddle girl carry chop suey—makea nice in white apron, liddle cap."

"I'll work hard if you'll give me a chance," said Helmi.

And so it happened that when Major Gowsett, who was recruiting for the Canadian Army, came in after a late meeting the next night for a cup of coffee and a sandwich, he saw Helmi carrying the trays from the kitchen. She was dressed very smartly in her black dress, with white apron and cap, and carried the trays with the old air of aloofness.

Deeply concerned as Major Gowsett was over the dishonoring of the Belgium women—and he spoke of them with deep feeling every night in his recruiting speeches; indeed, with an almost fatherly solicitude—he did not hesitate to tell Helmi's story now to his young officer friend.

"Our haughty looking waitress is a lady with a past—a real purple past," he said, in a low voice. I could swear to that head of hair any place, and that Boadicea manner, though she was not looking quite so haughty nor quite so svelte when I saw her last—she evidently has gotten over her trouble and is back to her old haunts. No decent girl works in a Chinese restaurant at night. Old Blackwood, at Bannerman, had the whole story in a newspaper and showed it in front of her."

The younger man looked after Helmi as she walked noiselessly past them with her tray of dishes. "She's a good-looking girl," he said, "and

she's a good-looking girl," he said, "and

SPORTSMAN LAYS FISHERY CHARGE.

(Calgary Herald)

For the first time, so Fisheries Overseer Richardson informed The Herald Wednesday, a private individual has laid a charge in connection with an infraction of the angling regulations. C. E. Kilvington, a member of the Calgary Fish and Game Association, found L. E. Holland, of Calgary, fishing in Chestermere Lake on April 29, during the closed season for pike. He laid the charge and appeared against the defendant in court before Magistrate Sanders, who imposed a fine of \$5 and costs.

Mr. Richardson said afterwards: "The work of the fisheries depart-

ment and the interests of angling will be well guarded if every other sportsman will constitute himself a guardian and will furnish information when infractions of the regulations come to his notice."

He also reported that Samuel Beck, of Cassils, had been fined \$5 and costs for fishing pike in Lake Newell during the closed season. J. A. Cuthbert, J.P., of Brooks, heard the case.

Guest (nervously): "I say, old chap—you'll excuse me—but really that butler of yours! He looks like an ex-murderer!" Host (a keen student of the modern crook drama) "Looks! My dear fellow, he is an ex-murderer!"

"Two of the Best."

Have you tried our BOOTS and OVERALLS? They're both the pick of the market.

In Boots we have the following makes—Padmore and Barnes, Canadian Sterling, Sisman, Valentine, Hydro City.

The "Knock-out" overall is the best obtainable.

Try and wear 'em out.

Baseball Gloves, Mitts, Bats, etc.

Phone 43

LOCAL & GENERAL

K. R. McLean, R.O., Sight Specialist, 212 Herald Bldg., Calgary, will make his monthly visit to Didsbury on Saturday, June 9th, in the Office adjoining Dr. Evans.

Phone 113, evenings, for appointments.

Special representatives for ladies' suits, dresses, and coats will be at Bersch's on Friday and Saturday of this week. Selling off the rack.

The Didsbury Hospital will be open to visitors on Saturday from 2 to 4 p.m.

Mrs. G. O. May returned from a visit last week to her son at Alsask, Sask.

The Ladies' Aid of Knox United Church will hold a silver tea at the home of Mrs. Boorman, Thursday, May 17th, from 3 to 6 p.m.

Mrs. K. A. Blatchford, wife of K. B. Blatchford, M.P. for East Edmonton, has been visiting her aunt, Mrs. Ranton, for the past few days.

A thousand laughs, an auto race with thrills aplenty come with "Fast and Furious," starring Reginald Denny, and playing at the Opera House on Saturday, May 12th.

Miss V. Thompson, L.R.A.M., teacher in piano, is coming to Didsbury every week. For information, phone 106.

A free lecture on "Household Furnishings" will be given in Knox United Church on Tuesday, May 15th, at 3 p.m. under the auspices of the Women's Institute.

Ladies of the town and district cordially invited.

Mrs. R. Hamper left here on Wednesday for New Westminster, B.C., where she will join her husband at Fraser View Manor.

J. Hewins, veterinary surgeon, has permanently located in Didsbury. Phone Chamber's Drug Store for appointments.

On Wednesday, May 16th, "The Flag Lieutenant," a British naval picture, will be shown. This gives a splendid picture of the British navy in action.

Dave Boettger is taking charge this week of the North End Lumber Co.'s yard. Last week it was inadvertently stated it was his brother E. N. Boettger.

H. Clemens and Frank Kaufman have opened in Didsbury during the past week an establishment, next the Pioneer office, in which they will carry on plumbing and tinsmithing. They are also prepared to receive orders for heating and lighting, and in view of the arrival of the hydro-electric, no doubt they will be well patronized. Both of these young men are well known to the residents of town and country, and their wide and varied experience in the particular lines of their business should bring for them a large share of local support.

At the initiative of St. Hilda's Chapter, O.E.S., and with the assistance of King Hiram Lodge, A.F. & A.M., an invalid chair was recently presented to the Didsbury General Hospital. This latest acquisition to the Hospital's requirements is one which has been found already extremely useful, and is very much appreciated by the matron and nursing staff.

Sunday is Mother's Day.

Mother's Day, May 18th, is one which is now widely observed, and worthily so. It is a day that brings to the consciousness of the son and daughter the realization of their obligation, and with some little gift, even with a simple letter, they can commemorate the day and once again respond to that love which never fails them.

At the invitation of Olds, an attempt is being made here in Didsbury to organize a football team to play our northern neighbor on May 24th. C. E. Reiber will be glad to receive the names of anyone who would like to participate.

Burnside.

We are sorry to report the death of Mrs. Ezra Good, an old resident of the Neapolis district. Mrs. Good died in a Vancouver hospital after a long painful illness and was buried from the English Church at Three Hills last Friday.

Mount Olive Horseshoe Team, composed Messrs. Wooley, Lee, Davis, Nikalous and Smith met defeat at the hands of the Burnside team composed of Messrs. Eckel, McAllister, Percy and George Saunders and McCulloch.

Miss Ruth Thoman is to attend the Olds Agriculture short course for a week this summer as a result of having the most points in the Sunnyslope School Fair District.

In the Community Hall School Fair district, Jutland carried off the coveted diploma and Arthur Liesemer gets a trip to Olds as a result of having the most prizes in that district.

Mrs. Walters, the Jutland school teacher, spent the week-end in Calgary.

Miss Helen Pross is spending the summer with Mrs. Munroe Finlay near Three Hills.

Mr. Dave Hughes spent Sunday with his friend Dave Jenkins.

Don't forget the W.I. picnic on May 24th at Lone Pine Hall. Keep the date in mind.

The Jutland school district residence was finished by last week and the teacher moved last Wednesday into her new abode.

Wheat seeding in this vicinity was well finished by last Saturday and most of the farmers are getting their oats in now.

Burnside U.F.A. will meet in the Lone Pine Hall on Monday evening, May 14. Mr. H. Scholfield, vice-president of the U.F.A. will be present and address the meeting on the formation of a Junior U.F.A. Everybody welcome. Lunch served after the meeting.

Mountain View Notes

Mother's Day Service will be observed in Mountain View Community Hall at 11 o'clock on Sunday, May 20th.

Mr. Tom Burgess and two boys of Drumheller spent Sunday at Harry Pearsons.

The Mountain View Women's Institute will hold a Baby Clinic on Tuesday, June 5th. All mothers in the community are invited to come and bring their babies and children up to six years of age.

Card of Thanks.

We wish to express our sincere thanks for the beautiful floral tributes, the kind help and the heartfelt sympathy shown us during our bereavement.

E. N. Boettger and family.

Committee is a medicine which takes a week to do what one good man can do in an hour.

RUGBY

The Rugby W.I. met at Rugby School on May 3rd.

The first part of their meeting took the form of an oratorical contest in Agriculture. There were two divisions; first Grades Six, Seven, and Eight and second Grades Three, Four and Five. Ten competitors took part. The first prize in Division 1 was won by Connie Hosegood of Rugby and second prize by Doreen Farrant of Melvin; Albert Krebs won first prize in division 2 and Walter Cook won the second. Maple Leaf pins were presented to each contestant. A second contest will be held at Rugby on May 25th.

The report of the District Conference which was held at Stettler on April 3rd and 4th was given by Mrs. Parker, the delegate.

Then followed a very instructive and interesting address on Alberta Industries by Miss Brubacker who demonstrated her remarks by samples of products such as Royal Crown Soaps, McClary Biscuits, etc. A Canadian lunch was then served.

Notice of Sale.

NOTICE IS HEREBY GIVEN under Section 48 of the Domestic Animals Act (Municipalities) that the following horses were impounded in the Pound kept by Geo. Metz Didsbury, Alta., located on the S.W. 24-31-27-4 on the 13th day April, 1928, and that said horses were sold on the 27th day of April, 1928.

One brown mare, star on forehead, right hip down, sold to A. Jenkins, Didsbury, Alta. One bay mare, white face, branded R left thigh, sold to J. S. Thomason, Sunnyslope, Alta. One black gelding, white star on forehead, white fetlock, sold to E. L. Hirondoli, Sunnyslope, Alta. One brown mare, white fetlocks, sold to Joe Clark, Didsbury, Alta. One brown gelding, white strip on face, sold to Arthur Jenkins, Didsbury, Alta.

And that said animals may be redeemed by the owner or on his behalf within a period of 30 days from the publication of this notice in the Alberta Gazette, upon payment of all fees and costs due the Municipality and the Purchaser of the said animals. For further information apply to the undersigned.

A. Brusso

Sec.-Treas. Municipal District of Mountain View, No. 310.

Boy Dies from Burns

Robert Pickett, son of Mr. and Mrs. C. R. Pickett, nine miles north west of Olds, died last Saturday night at the Olds Hospital as the result of burns sustained while he was burning stubble on his father's farm.

Every bit of the boy's clothing was burned, except his hat and shoes.

The boy ran with his clothes in a mass of flames and with the heat cruelly scorching his body for a distance of a quarter of a mile, from the place where the burning stubble set fire to his clothes to his father who was running a tractor some distance away. Apparently he had been unable to put out the flames himself and had at once rushed to his father to help him.

The lad was rushed to Olds hospital at once, but he passed away that evening. He is survived by his father and mother, his brother Dan, aged 15, and three sisters.

Mr. Pickett is a Councillor for the Westerdale Municipal District and he and his family are the recipients of a widespread sympathy.

Okanagan.—Word is received from Washington that the Okanagan project, during the last year, had a higher per acre yield of apples and a consequent higher acre return to the grower, than any government irrigation project in the United States. The local project, with 3,567 acres in apples, has a yield of 35,142,750 pounds, or 9,852 pounds to the acre, a yield which brought the growers a return of \$1,030,854, or the high record price of \$289 an acre. On the Yakima project the average yield was 9,602 pounds to the acre or at the rate of \$246.16 per acre. The nearest approach to the Washington record was on the Sun river project in Montana, where the average was \$153.33 an acre, followed by the Boise project, with a price of \$148.

Ottawa.—The Department of Agriculture has issued a report showing how the Canadian "Moth" plane is combatting wheat rust—how the Canadian Air Force, the Federal Department of Agriculture and the pathological plant of the Manitoba Agricultural College at Winnipeg are uniting to fight the enemy. The report says: "The work consists mainly in the exposure of slides at different altitudes and at different locations. These aeroplane exposures attempt to collect from altitudes of from 1,000 to 5,000 feet the date of the earliest appearance of rust spores, the region over which they first appear, the rate at which the spore content of the air increases over various regions, the visibility of spores caught at these higher altitudes and the relation of certain environmental and climatic factors to the rate of development and spread of rust. Tightly stoppered bottles are used, containing wooden paddles to which are attached microscopic slides lightly smeared with vaseline. These slides are exposed for 15 minutes at varying altitudes; the slides are replaced in the bottles and then returned to the Government laboratory at Winnipeg."

Here and There

(62)

Quebec.—When the 1928 shipping season opened here April 22, the Canadian Pacific St. Lawrence fleet supplied fifty per cent of the steamers that docked with S.S. Montclare, Montreal and Melita. The three ships carried in round figures 2300 immigrants aboard mostly of British stock and destined to farms in the West.

International Advertising Convention and Exposition to be held at Detroit, July 8-12, is already attracting wide notice and will continue under one roof everything relating to organized advertising in every phase. Advertising men from overseas will attend and bookings are being made on Canadian Pacific liners from Great Britain and Europe well ahead of time in view of the large demand for travel that will arise.

Sixty-five miles of salmon fishing in the Cains River, New Brunswick, were enjoyed recently by five anglers from Chicago and the U. S. Middle West and by a party of New York newspapermen, including W. McGeehan, internationally known New York Herald-Tribune sports writer. Both parties were staying for about a fortnight in the care of Harry Allen, well known New Brunswick guide. They travelled Canadian Pacific to their fishing destination.

Who Wants War?

The statement has been made so frequently, and with such vigor that it is the capitalist class of the world which has been responsible for war between nations, that many people have become convinced of its truth. And it is probably true that some of the wars of the past have been the direct result of greedy men seeking to further their own selfish ends. To what extent capitalists have been responsible for past wars it would be difficult to say, but, with the experience of the last Great War, and the disastrous effects on industry and world commerce which resulted, both during the continuance of the conflict and in the years that have followed, it is safe to say that Capital has learned its lesson, and today the whole influence of the financial and industrial world is thrown into the scale in favor of continuing Peace.

A strange picture is, however, presented by the one country in which those who are loudest in their outcry against the capitalist class are in full control, namely, Russia. In no other country is Capital so strongly denounced as in Soviet Russia. The Soviet leaders regard Capital as the source of all the world's difficulties and sorrows. At its door they lay the major crimes of the world. The revolution under Lenin and Trotsky had for its object, not the overthrow of the Czarist Government, for it had already fallen, but the overthrow and complete destruction of Capital, and in their campaign against the capitalist system they held it to be responsible for war and the sufferings and losses which war always entails.

Today, however, under the leadership of the Soviet, Russia is the most militaristic country in the world,—the one chief place of danger to the peace of the world. Recently a first-hand picture of the military spirit of Russia was given by one who is friendly to the professed ideals of the Soviet, Mr. William Wellock, Socialist M.P. for the Stourbridge Division of Worcestershire, England, in the British Parliament. He makes some interesting disclosures in a recent article on "Soviet Russia of Today," which appeared in a recent issue of the "Socialist Review." There he admits that the Soviet dictatorship "possesses, even boasts of, a most efficient Secret Service, and is responsible for creating a military spirit that gives one food for reflection."

Moreover, he says, "Girls as well as boys are learning to handle rifles, and girls' corps for this purpose are being formed in those otherwise excellent institutions, workers' or trade union clubs. Indeed, except during the World War, I have never seen such military enthusiasm as I witnessed in Russia during my recent visit." Mr. Wellock mentions a military demonstration by half a million young people of the International Youth Movement, and observes: "If after the enthusiasm and determination I then witnessed, Russia is ever attacked I pity the army that comes out against her, for no capitalist government in the whole world can put an army into the field with a modicum of the enthusiasm possessed by Young Russia. It was very significant."

Thus, while professing peace at Geneva, and submitting proposals that all the nations of the world totally disarm, the Soviet leaders are engaged in the task of exciting military enthusiasm throughout the length and breadth of Russia, and training the youth of the land, girls as well as boys, for war.

In the face of such duplicity, and with full knowledge of what Russia is attempting in China, and, in fact, in all countries where a feeling of unrest prevails, how can the other nations of the world scrap all their armaments, as many, if not most of them, would like to do so? Russia is, in actual fact, the greatest stumbling block to world disarmament, and, notwithstanding all the pious protestations of the Soviet leaders, constitutes the outstanding threat against future peace among the nations.

Delay In Delivery

Postal Note Issued In 1910 Cashed After 18 Years

After a trip to Bukowina and several other points in the Balkans and long rests at Ottawa, New York, and other likely points, a postal note for \$27, issued at Cranbrook in 1910, was recently cashed at Creston Post Office by the owner, Frank Kenik, now employed locally, though the note was sent him 18 years ago by his brother, John. At the saving account rate of interest the holder of the long overdue note is out over \$20.

Women are always included when speaking of mankind, for man embraces woman.

World's Greatest Tea Drinkers

New Zealanders Serve It Seven Times Every Day

In New Zealand they drink tea seven times a day, according to one of the Canadian Exchange teachers, Miss Luella Derbecker, of Kitchener, Ont. Miss Derbecker stated that although there were no furnaces in the houses, the practice of tea-drinking served to counteract the chill of the rainy season during July and August. Tea before breakfast, tea at breakfast, morning tea at half past ten, tea for lunch, afternoon tea, tea for dinner, and tea for supper was the unvarying procedure. Even the schools, shops and offices served tea at 10:30 in the morning she said.

Premier Baldwin Never Contributes To Press

Has Never Been Asked But Hopes He Will Be

That Premier Baldwin occupies a somewhat unique distinction among cabinet ministers in that he has never had a single offer of any kind to contribute to the press, was revealed by Mr. Baldwin in a speech at a luncheon given to Viscount Burnham.

"I might produce something," the Premier said, smilingly, "that if not worth a penny a line might at least be worth a penny a mile," he remarked. When he retired from public life, he added, he would like to feel that one kind hearted person had once made him an offer so that he could see his own stuff in print with his name under it.

Will Travel By Plane

Prince Of Wales Will Use Aeroplane In Trips About Country

The London Mail says that the Prince of Wales has decided to use an aeroplane for travel about the country in fulfilling his numerous engagements. A special fast army two-seater plane has been allotted for his use at Northolt Aerodrome, near Harrow.

The Prince holds the rank of group captain in the Royal Air Force and has had considerable experience in flying.

High Prices For Livestock

At the Spring Stock Show held recently at Calgary, Alberta, 393 bulls were sold for a total of \$116,720, an average of \$297 each, which was \$184.50 per head higher than was paid for 558 bulls at the 1927 show.

MISTAKES MOTHERS MAKE IN CARE OF LITTLE ONES

Many mothers give their children solid foods at too early an age and say proudly that their babies "eat everything that grown up people do." Such a course is almost certain to bring on indigestion and lay the foundation of much ill-health for the little one.

Other mothers administer harsh, nauseating purgatives which in reality irritate and injure the delicate stomach and bowels and at the same time cause the children to dread all medicine.

Absolutely no meat should be given to a child until it reaches the age of 18 months, and then only if approved by the doctor. For medicine, all strong, disagreeable oils and powders should be abandoned and Baby's Own Tablets given instead.

Baby's Own Tablets are especially made for little ones. They are pleasant to take and can be given with absolute safety to even the new-born babe. They quickly banish constipation and indigestion, break up colds and simple fevers and make the cutting of teeth easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Growth Of Alberta Phone System

In the first three months of this year 448 new telephone stations were opened in the Province of Alberta. The phone system in Alberta is operated by the Provincial Government.

Miller's Worm Powders can do no injury to the most delicate child. Any child, or infant in the state of adolescence, who is infested with worms can take this preparation without a qualm of the stomach, and will find in it a sure relief and a full protection from these destructive pests, which are responsible for much sickness and great suffering to legions of little ones.

Aluminum is more abundant throughout the world than any other metal. It forms over eight per cent. of the earth's crust.

Requisite On the Farm.—Every farmer and stock-raiser should keep a supply of Dr. Thomas' Electric Oil on hand, not only as a ready remedy for ills in the family, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil for horses and cattle affected by colic it far surpasses anything that can be administered.

Men cannot live on the moon because the moon has no air and no water, at least in liquid form, and because it is so cold.

Canada is the principal source of soft wood supplies in the British Empire.

Insist on Minard's Liniment—accept no other.

According to a sports journal, chess-players seldom die young. They would never finish a tournament if they did.

Nail GYPROC right over Old Walls

GYPROC Advantages for Farm Buildings

Easy to use.
Low cost.
Workable as lumber.
Cannot warp, bulge, crack, shrink or burn.
Takes any decoration.
Resists heat and cold.
Vermic proof.
Eliminates repairs.
Ideal for lining garages, poultry houses, barns, grain bins, and other farm buildings.
Especially suitable for converting attics and basements into extra rooms.

How many rooms in your home have walls that are cracked and faded? Make them "good as new" by nailing Gyproc right over the old, unsightly wallpaper. When you've decorated with Alabastine your home will be as attractive and comfortable as any home can be.

Use Gyproc for partitioning off extra rooms, renovating attics and basements, and making grain bins, stables and other farm buildings fire-safe and vermin-proof. You can put it up yourself—easily, quickly and at a substantial saving.

Gyproc Joint Filler applied at all the joints insures a perfectly smooth, flat surface that will take any decoration.

Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour.

Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

WHEAT POOL CONFERENCE TO BE HELD IN JUNE

Winnipeg. — Co-operative marketing associations engaged in marketing livestock, dairy products, wool, fruit, poultry, etc., as well as representatives of consumers' co-operative organizations, will take part in the third international wheat pool conference, to be held at Regina, on June 5, 6 and 7, it was announced by C. H. Burnell, chairman of the Wheat Pool committee, after an all-day session in the Manitoba Wheat Pool offices.

Mr. Burnell received word that the Scottish Co-operative Wholesale Society will be represented by John Cairns and Peter Malcolm, directors, and William Smith, commercial manager and wheat buyer, as well as by John B. Fisher, of Winnipeg, Canadian manager, and the English Co-operative Wholesale Society by A. W. Goliath and J. Oliver, directors, and A. H. Hobley, central wheat buyer.

Sir Thomas Allen is expected to attend as a member of the British Empire Marketing Board, Henry J. May, secretary of the International Co-operative Alliance has cabled that he will be present.

The Australian Wheat Pool are sending two representatives, C. Judd, of the Victoria Wheat Pool and J. Hawkins of the South Australia Farmers' Co-operative Union.

It is expected that Russian Co-operative Marketing Societies will be represented by several delegates.

The Australian government and the International Institute of Agriculture will have special representatives at the conference. A number of prominent officials from the United States department of agriculture as well as representatives of a number of the large co-operative organizations in addition to delegates and officials of the United States wheat pools will be present.

Among those who have promised to attend are: Judge John D. Miller, vice-president and general counsel of the Dairymen's League and president of the National Co-operative Milk Products Federation, New York City; John Brandt, president of the Land O'Lakes Creameries, of Minneapolis; Ralph D. Merritt, managing director of the Sun-Maid Raisin Growers, Fresno, California; J. S. Montgomery, general manager of the Central Co-operative Association, St. Paul; F. M. Black, chairman of the Interior Tree Fruit and Vegetable committee of direction, Kelowna, B.C.

Hon. W. R. Motherwell, minister of agriculture for Canada; Hon. J. E. Brownlee, premier of Alberta; Hon. J. G. Gardiner, premier of Saskatchewan, and Hon. R. A. Hoey, who will represent the Manitoba Government, will be among the speakers.

Radium Specialist Martyr To Science

Has Lost Left Hand But Will Continue His Work

Paris. — For the tenth time in two years Henri Bourdon, radium specialist in St. Louis hospital, Paris, has submitted to the amputation of a finger joint. His right hand is still intact, but ten operations have cut the left away. The skin effect which develops cancer is responsible. His hip also is affected. Physicians have warned M. Bourdon that his martyrdom will be fatal, but the radiologist's answer is: "My Comrades in the war made greater sacrifices for humanity."

Would Amend Divorce Bill

Ottawa. — J. D. Woodsworth, Labor member of North Centre Winnipeg again moved in the house to amend a divorce bill. Mr. Woodsworth moved that the bill be amended to give the wife—the petitioner—the custody of the child, while the father should pay \$500 a year for the child's maintenance as long as the mother remained unmarried, and \$200 a year if she remarried. The husband in this case should not have the right to remarry again and if he went through the process of marriage would be subject to seven years' imprisonment.

Think British Envoy Should Be Canadian

British Labor M.P. Suggests Dominion Citizen For Post At Washington

London. — Appointment of a Canadian as principal representative of Great Britain at Washington is a suggestion made in a book, "The Freedom of the Seas," just published by Lt.-Commander J. M. Kenworthy, Labor M.P., and George Young, once attaché to the late Lord Bryce, in the British embassy at Washington.

Referring to the naval differences between the two countries the authors state that in their belief the conflicting policies can be reconciled. They continue:

"There is now a new diplomatic channel and democratic contact in the Canadian diplomatic representative and his staff at Washington. Canada is a bond for peace between Great Britain and the United States and her mission in Washington might become a bridge for political confidence and co-operation."

"We might indeed do worse than persuade the Canadian Government to release an important citizen of the Dominion to represent England and the Empire at Washington when next there is a vacancy at the British embassy, and let the foreign office be represented by an official who would be a junior to the representative."

Gen Currie Receives Verdict

Jury Finds Article Criticizing Sir Arthur Was Libellous

Cobourg, Ont. — By a poll of eleven to one, a civilian jury rendered a verdict against W. T. R. Preston, writer of the article which appeared on June 13, 1927, in the Port Hope Guide, entitled "Mons," and against the publisher of the paper, F. W. Wilson. The jury, after four hours' deliberation, found that publication of this article was libellous and they awarded General Sir Arthur Currie, who was the aggrieved party in the suit, damages in the sum of \$500. The former commander of the Canadian corps had claimed \$50,000.

The trial opened on April 16, in the Ontario supreme court assizes at Cobourg before Mr. Justice Rose and a jury, the hearing of evidence and addresses to the jury lasting well into 14 days. During the course of the testimony the events of the stirring days which closed the campaign in Belgium and France, were gone over by scores of witnesses, including a number whose names have become famous for deeds of gallantry and heroic leadership.

Sir Arthur was represented by W. N. Tilley, K.C., Toronto, and F. W. Wilson by Frank Regan, of Toronto. W. T. R. Preston conducted his own case.

Prepare For Night Flying

Beacons Have Been Ordered For Canadian Air Route

Ottawa. — Night flying will soon be a factor in aviation in Canada, according to plans being formulated by the civil aviation branch, department of national defence, for the first lighted airway in the Dominion, says the Ottawa Journal.

Tenders it is understood are to be called for by the government for five giant beacon lights to be placed at intervals of 35 miles along the south shore of the St. Lawrence River on the air route from St. Hubert aerodrome, Montreal, to Levis, Que. This will form a great part of the air mail route from Rimouski to inland points, which opened for the season on May 5.

Damage From Tidal Wave

Natives Killed and Crops Destroyed On Madagascar Coast

Paris. — Official advices just reaching Paris said that numbers of natives were killed and great damage done by a tidal wave which swept the East coast of Madagascar from Tamatave to Port Dauphin on April 20.

The European population escaped. Telegraph and telephone lines were cut. Buildings were swept away and many acres of crops destroyed.

Prompt measures were taken to avoid famine in the flooded districts.

SUCCESSFUL POLAR FLIGHT

Capt. George Wilkins, who flew over the north pole from Point Barrow to Spitzbergen, covering some 2,200 miles in 21 hours.

Leaves Life Job In Canton

Former Edmonton Man Was Bodyguard For Late Dr. Sun Yat Sen

Canton. — Morris Cohen, famous two-gun man from Canada, who served the late Dr. Sun Yat Sen as bodyguard for the last three years of the revolutionary leader's life, has left Canton for an unnamed destination.

Of the polyglot coterie of foreigners who assembled about Dr. Sun's person in Canton—Red Russians, Americans, Germans—this burly free-handed Jewish adventurer is believed to have been the last of any prominence remaining in China. He turned up here six years ago with a letter of recommendation from revolutionary Chinese in Edmonton, Alta., whence Cohen hailed.

When the Kuomintang leader died in 1925, his will stipulated that Cohen should have a life job in the Canton Government's Central bank. This he held, acting as messenger and purchasing agent for Canton officials, until he became involved in the Red uprising of last December. The upshot was his purchase of a one-way ticket from the scene of his six-year phase of his adventurous career.

Starts On Long Trip

Chicago. — The job of putting the Rotary club on "main street" in Jerusalem, Constantinople, Cairo, and the cities of the Orient, has been given James Davidson, of Calgary, Alta., who has started a seven months' trip. Mr. Davidson is a past vice-president of Rotary International. His itinerary includes: Manchuria, Dutch East Indies, French Indo-China, Siam, India, Arabia, Egypt, Palestine, Turkey and Greece.

Preference Given Railway Bill

Ottawa. — D. M. Kennedy, U.P.A., Peace River moved in the House of Commons that when private bills are considered this week, the bill respecting the Edmonton and Dunvegan Railway be given precedence over other private bills. The House immediately proceeded to divide on the motion, without debate. The motion carried by a vote of 120 to 46.

FAMOUS CANADIAN EXPLORER

Captain J. E. Bernier, the Arctic explorer and his wife. It was 20 years ago this last year that Captain Bernier took possession of the Arctic archipelago in the name of Canada. He has always been a champion of the Hudson Bay route and has been in and out of the straits a score of times without the least mishap. At 76, this iron man, who came over from the wooden ships to the iron ships, is a physical marvel and is far from having made the last entry in his log books.

Washington Greets Fliers

Crew Of Bremen Presented With Distinguished Flying Crosses

Washington, D.C. — The crew of the Bremen was welcomed to Washington as pioneers whose feat symbolized the ever-narrowing distance between the nations of the world.

Coming by train in the early hours of the morning, the German-Irish trio which accompanied the first non-stop flight of an airplane over the North Atlantic from the east, received the Secretary of State Frank B. Kellogg's greetings of the nation to supplement the tumultuous welcome they were given in New York City.

The three fliers, Von Huenefeld, Fitzmaurice and Koehl, were greeted as men who had "marked another milestone in the path of man's conquest over the forces of nature."

After Secretary Kellogg had greeted them Ambassador Von Fitzmaurice, of Germany, and Hon. Timothy Smiddy, minister of the Irish Free State, stepped forward to offer welcome.

Prominent among those participating in the welcoming ceremonies was Col. C. A. Lindbergh and Eddie Rickenbacker, the U.S. war ace.

Later in the day the Bremen trio received from President Coolidge the distinguished flying crosses awarded them by Congress.

Commencing Work On Peace River Highways

Alberta Ministers Made Inspection Trip Over Proposed Route

Edmonton. — Hon. O. L. McPherson and J. D. Robertson, minister and deputy minister of public works, have returned from an inspection trip over the proposed route of the Peace River Highways. They went as far north as High Prairie, visiting a number of points where road construction details required decision before the season's work begins.

Work on the new highway into the North is to be commenced at once and will be pushed forward as rapidly as conditions will permit during the spring and summer. A working crew has already made camp in the Lesser Slave Lake region, where a considerable amount of clearing is to be done for the new road.

Mr. McPherson is hopeful of better conditions than last year, which in turn will make possible a better construction record for the season.

Transferred To Ottawa

Rome. — The Italian consul-general at Montreal has been transferred to Ottawa, it was announced by the Italian foreign office recently. The move is considered of diplomatic importance. The Montreal office becomes a consulate. A vice-consulate has been instituted at Vancouver, B.C., the announcement added.

London-India Air Service

Croydon, Eng. — Speaking at the official opening of the enlarged Croydon Aerodrome, Sir Samuel Hoare, British air minister, said he had approved the outline of an agreement between the Government and the Imperial Airways for a regular weekly air service between London and India.

EGYPT MUST REMAIN UNDER BRITISH CONTROL

London. — "I think the interests of Great Britain in Egypt make it impossible to contemplate the occupation of Egypt by any other power than ourselves," Sir Austen Chamberlain, British foreign secretary, asserted in the House of Commons after making public Britain's reply to the Egyptian government's note announcing its intention not to proceed with the session with the assemblies bill to which Britain had objected.

The Egyptian note dispelled for the time being at least the crisis brought about by the Egyptian government's intention to enact the measure and also resulted in the countermanding of instructions which it had previously been thought necessary to give to certain British warships.

"It will always be necessary," Sir Austen declared, "for this and other governments in the future to maintain the principles of the declaration of 1922 and as we forbid other powers to interfere we must also take measures to secure the safety of citizens of those powers as well as our own nationals."

The foreign secretary's statement came in answer to a question by Will Thorne, Labor, Plaistow, who enquired whether Sir Austen thought the declaration of 1922 would stand for ever.

Asks More Financial Help For Settlers

British Welfare Worker Advocates Family Re-Union Scheme

Ottawa. — "Canada must not become another melting pot; we must keep Canada British."

So stated Albert Chamberlain, president of the British Welcome and Welfare League, Toronto, in appearing before the agriculture committee of the House considering immigration problems.

"There ought to be some financial assistance available to help British women and children to join their husbands in Canada, provided they can be taken care of on arrival," continued Mr. Chamberlain.

"There are today thousands of British men living in Canada apart from their wives and children in the Old Country and this is an undesirable condition of affairs for Canada, for the husbands and wives and for the Old Country," he said.

The British government was prepared to financially assist the league in its family re-union scheme. If the Ontario and Dominion governments or either one of them were prepared to share the costs, the British government is ready to pay 50 per cent. of the cost of the scheme.

The league, Mr. Chamberlain said, could bring 50,000 British women and children to Canada annually if the proper financial system was in operation.

Claim Explanation Does Not Satisfy British

Invasion Of West Indies Ports By U.S. Anti-Smuggling Ships Being Discussed

Washington, D.C. — The controversy between the British and United States governments over violations by the United States prohibition enforcement staff of the Bahamas agreement probably will be carried to President Coolidge.

It is rumored here that Secretary of State Kellogg has informed the treasury department which is in charge of coastguard ships that the British government is not satisfied with the explanation offered of recent invasion of British ports in the West Indies by anti-smuggling ships from the United States and that the whole question will have to be referred to the president and his cabinet.

Executive departments here will neither confirm nor deny the rumors concerning the controversy, nor will the British embassy comment.

The heart of the average adult is 3 inches long, 3 1/2 inches broad and 2 1/2 inches thick; it is the strongest organ and does the most work.

Church Announcements

Evangelical Notes

At the recent "Founders Day" program of the Evangelical League of Christ Endeavour it was shown that the Evangelical Church as a denomination, yet in its infancy compared to many other churches, is enjoying a marvelous growth. It has already unfurled the Gospel banner on four continents; under ten flags; proclaiming the Gospel in twelve languages to approximately 260,000 members plus a multitude of adherents upon whom the sun never sets.

Mother's Day service will be observed next Sunday evening. The Ladies' Aid is working in conjunction with the choir to provide suitable preliminaries for this service in honor and memory of "Mother."

United Church

Rev. A. E. Hayes, B.A., Minister.

11 a.m. Sunday School.
2.30 p.m. Westcott
7.30 p.m., Didsbury.

May 13th is Mother's Day. It is eminently fitting that one Lord's Day in fifty two be set aside as Mother's Day. When Spring is opening in all its beauty of bird and flower, blossom and field, and there is on every hand evidence of a new life in nature. It is most appropriate that we should have opportunity especially to remember our mothers.

Lutheran Church

Westcott, 10.30 a.m., English.
Didsbury, 8.00 p.m., English.
The spring conference of the Lutheran Alberta Pastoral Conference was held at Lethbridge from April 17th to 19th. Most encouraging of the reports rendered was the report of Rev. C. Thies, Director Missions. According to the report twelve parishes were at present engaged in either buying or building churches, parsonages or schools. More than \$20,000 had been requested in the form of subsidy, all of which would be paid out of the local church Extension Fund. Two new churches were to be built in Edmonton during the course of the summer, while the edifice of another denomination would be purchased in Lethbridge.

In the report the Didsbury Lutherans whose negotiations for the former Baptist church is nearing completion received favorable mention.

SETTLERS' EFFECTS MUST BE FREE OF SEED WEEDS

Attention is drawn by W. J. Stephen, provincial field crops commissioner, to two amendments to the Noxious Weeds Act passed at the last session of the Legislature. These are as follows:

18a. No person shall move or cause to be moved any settlers' effects, machinery, or any other matter or material to any point in the Province until all noxious weed seeds adhering to or being in or upon the same, if any, have been carefully removed, and a statutory declaration to the effect that this section has been complied with has been forwarded to the Minister.

18b. No person shall ship into the Province any hay or green sheaves without the consent in writing of the Field Crops Commissioner.

A number of complaints have been received from different sections of Alberta that carloads of settlers' effects shipped from outside the Province have included hay and feed containing a great many weed seeds, and strenuous objection is taken to this by farmers in the districts affected. The co-operation of the railway companies is being secured to facilitate the inspection by the Department of Agriculture of shipments of this nature, and it is hoped that the introduction of weed seeds in this way can be checked.

"How long had you known your husband before you were married?"

"I didn't know him at all; I only thought I did."

Mabel: "So Maurice and you are to be married? Why, I thought it was a mere flirtation."

Mavis: "So did Maurice."

A Triumph of Engineering Genius!

UNDERLYING the smart styling of Pontiac's Fisher-built bodies, you will find the master touches of skilled craftsmen and designers . . . the unmistakable evidence of engineering excellence.

The big, husky Pontiac Six engine—with its GMR "blue-streak" cylinder head, its crankcase ventilation system, its oil filter, air-cleaner, etc. . . . is the result of the skill and experience of Pontiac engineers, plus General Motors' great engineering and research laboratories!

The fuel-pump system (replacing the vacuum-tank) . . . the Lovejoy Shock Absorbers . . . the sure acting mechanical Four Wheel Brakes . . . these too are developments of Pontiac plus General Motors.

General Motors' resources make Pontiac Six a triumph of engineering genius, just as they make it a revelation of six-cylinder value.
